

Illinois Tobacco Prevention & Control Program Webinar Series

The Truth about Smokeless Tobacco, a Highly Addictive Product

Wednesday, January 11, 2017

2:30 PM – 3:30 PM (CT)

Featuring:

Susan Morgan, DDS, MAGD, CTTS

M. Suann Gaydos, MSDH, CTTS

Amy Funk, MSDH, CTTS

This webinar is designed to provide information for local health departments and tobacco prevention and control partners on smokeless tobacco and its usage rates. The webinar will cover details about popular smokeless tobacco advertisements and the impact of tax increases on the use of smokeless tobacco products. A case study from West Virginia will be presented showing how to address smokeless tobacco cessation and strategies to approach hard to reach populations and groups.

Dr. Morgan, Ms. Gaydos and Ms. Funk are faculty members of the University of West Virginia School of Dentistry and have extensive experience in their fields. They are also certified tobacco treatment specialists and assist with tobacco cessation strategies in clinical and community settings.

Please circulate this invitation freely, especially to members of the community who work in tobacco prevention and control.

No pre-registration is needed. Use this link to access the webinar:
