NOTICE OF EMERGENCY AMENDMENTS

- 1) Laboratories and other facilities performing lab services that provide tests for screening, diagnosis, or monitoring of coronavirus disease shall report all laboratory results, including positive, negative, and indeterminate results for coronavirus tests, including, but not limited to, all molecular, antigen, and serological tests, including rapid tests, to the Department via the Department's electronic lab reporting (ELR) system in a manner and on a schedule prescribed by the Department. Laboratories unable to submit results to the Department via the Department's ELR shall contact the Department for instructions on how to submit results.
- 2) Positive results shall be reported to the Department immediately, within 3 hours.
- 3) In addition to the ELR submission required in subsection 361(c)(1), laboratories shall submit all test results and corresponding data, including, but not limited to, the test type, specimen source and patient demographic data, including but not limited to race, ethnicity, sex and address information, to the Department via the Illinois National Electronic Disease Surveillance System (I-NEDSS) within 24 hours after testing until the file is ready for production.
- 4) Laboratories and other facilities performing lab services shall instruct their clients that patient demographic information must be submitted with the order request.
- 5) Laboratories shall only submit results for tests they have performed. Laboratories shall not submit results on referred specimens.
- 6) If deemed necessary by the Department or local health authority, laboratories shall forward clinical specimens to the Department's laboratory for further testing.
