

CLINICAL LABORATORY TECHNOLOGIST 1, OPTION A

4 POSITIONS AVAILABLE

The Illinois Department of Public Health has four positions available for a Clinical Laboratory Technologist, Option A, within the Office of Health Protection, Division of Laboratories. Staff hired for these positions will use a variety of molecular and biochemical tests methods (PCR, HPLC, Tandem Mass Spec, Genetic analyzers, etc) to screen all newborn babies for genetic and metabolic conditions. The Clinical Lab Technologist, Option A plans, organizes, and is responsible for sample preparation, sample processing, reagent preparation, and running instruments to test newborn screening specimens. This position also evaluates test data, quality control records and laboratory results. The positions are based in Chicago, Illinois.

The Clinical Laboratory Technologist, Option A position requires a Bachelor's degree in Medical Technology from a recognized college or university; or, a bachelor's degree from a recognized college or university in one of the chemical, biological or physical sciences, supplemented by one years' professional clinical laboratory experience.

- Work shift is 8:00 am – 4:30pm, Tuesday through Saturday
- The current salary range for this position is \$4,377 - \$6,581 per month.
