The Illinois Injury & Violence Prevention (IVP) Program addresses key areas, including:
- Child product safety
- Impaired driving
- Child maltreatment
- Sexual assault/intimate partner abuse
- Suicide/self-inflicted injury
- Traumatic brain injury

Program Funding
State public health IVP programs piece together and manage funding from multiple sources for prevention efforts. In Illinois, the IVP program relies solely on funding from federal funding sources.

Current sources of funding for the Illinois Injury & Violence Prevention Program

**Funding Sources**
Illinois Injury & Violence Prevention Program
