E-CIGARETTE USE AMONG ILLINOIS TEENS IS RISING

Among Illinois high school seniors, past 30 day e-cigarette use is significantly rising while cigarette smoking is declining.

*U.S. Federal Drug Administration, Youth E-cigarette Prevention Campaign Press Release, https://www.fda.gov/NewsEvents/PressAnnouncements/ucm620788.htm Created by: IDPH, Chronic Disease Division, November 2018

Data Source: University of Illinois Urbana Champaign, Center for Prevention Research and Development, Illinois Youth Survey, 2018. The IYS is funded by the Illinois Department of Human Services, Bureau of Substance Use Prevention and Recovery.

E-CIGARETTE USE AMONG YOUTH IS NOW EPIDEMIC*

The percent of Illinois teens who first used e-cigs in the past year increases as grade level increases and is increasing from previous years

EDUCATION ON E-CIGARETTE USE IS NEEDED

Using e-cigarettes, like cigarette use, puts youth at risk for addiction and other health consequences*

E-CIGARETTE POLICIES CAN MAKE A DIFFERENCE

Tobacco policies, restrictions and local ordinances should be expanded to include e-cigarette restrictions in public places.
