

# Middle School Health Significant Start Sta

SCHOOL NURSE TOOLKIT

#### INTRODUCTION

Thank you for all you do for middle school students and their families.
This toolbox has handy resources to help you guide parents to better health for their children.

#### In this toolbox, you'll find:

- Materials to Share with Parents
- FAQs on Vaccination, Including HPV
- How to Share This Project
- Worksheet for Local Health Resources and Your Partners in School Health
- Mini Toolkit For School District's Public Information Officer

Visit our website with even more information - MiddleSchoolHealth.org

The Middle School Health Starts Here program was created by public, private, academic, and nonprofit organizations across the country that care a lot about the health of all kids. They have worked to pull the most important information for you and your child.

This toolbox has companion materials that were created just for parents to help them learn more about the unique needs of their middle school child's health

#### In the Toolbox, you'll find:

- **Ready to Print PDFs** Easy to understand documents with summary health information and handy handouts
- Website Resource for parents that's smartphone and tablet ready
- Brochure Print-ready brochures to promote the toolbox
- Poster Print-ready poster to promote the toolbox
- Social Images Designed to promote middle school health on Facebook, Twitter and Instagram
- Middle School Communications Resources for the school nurse at the feeder elementary school to send to 5th grader's parents

#### **This Toolbox Contains:**

- Checklists
  - > Annual Visit Checklist
  - > Healthy Year Checklist
  - > School Readiness Checklist
- Your Healthy Middle Schooler
- Vaccinations often recommended for school
- Tdap, HPV, Meningococcal, Influenza, Catch-up
- Oral Health
- Eyes and Ear Health

- Skin Care
- Sleep and Rest
- Physical Activity
- Nutrition
- Relationships
- · Emotional Health
- Tobacco Awareness
- Substance Abuse Awareness alcohol, marijuana, etc.
- · Empower the Youth

### **Bright Futures Previsit Questionnaire Early Adolescent Visits**

For us to provide you with the best possible health care, we would like to get to know you better and know how things are going for you. Our discussions with you are private. We hope you will feel free to talk openly with us about yourself and your health. Information is not shared with other people without your permission unless we are concerned that someone is in danger. Thank you for your time.

**GROWTH AND** 

### **Bright Futures Patient Handout Early Adolescent Visits**

#### **Your Growing and Changing Body**

- Brush your teeth twice a day and floss once a day.
- Visit the dentist twice a year.
- Wear your mouth guard when playing sports.
- Eat 3 healthy meals a day.
- Eating breakfast is very important.
- Consider choosing water instead of soda.
- Limit high-fat foods and drinks such as candy, chips, and soft drinks.
- Try to eat healthy foods.
  - 5 fruits and vegetables a day
  - 3 cups of low-fat milk, yogurt, or cheese
- Eat with your family often.
- Aim for 1 hour of moderately vigorous physical activity every day.
- Try to limit watching TV, playing video games, or playing on the computer to 2 hours a day (outside of homework time).
- Be proud of yourself when you do something good.

#### **Healthy Behavior Choices**

- Find fun, safe things to do.
- Talk to your parents about alcohol and drug
- Support friends who choose not to use tobacco, alcohol, drugs, steroids, or diet pills.
- · Talk about relationships, sex, and values with your parents.
- Talk about puberty and sexual pressures with someone you trust.
- Follow your family's rules.

#### **How You Are Feeling**

- Figure out healthy ways to deal with stress.
- Spend time with your family.

WELL-BEING

ACADEMIC COMPETENCE

- · Always talk through problems and never use violence.
- Look for ways to help out at home.
- It's important for you to have accurate information about sexuality, your physical development, and your sexual feelings. Please consider asking me if you have any questions.

#### **School and Friends**

- Try your best to be responsible for your schoolwork.
- If you need help organizing your time, ask your parents or teachers.
- Read often.
- Find activities you are really interested in, such as sports or theater.
- · Find activities that help others.
- Spend time with your family and help at
- Stay connected with your parents.

#### **Violence and Injuries**

- Always wear your seatbelt.
- Do not ride ATVs.

VIOLENCE AND INJURY PREVENTION

- Wear protective gear including helmets for playing sports, biking, skating, and skateboarding.
- Make sure you know how to get help if you are feeling unsafe.
- Never have a gun in the home. If necessary. store it unloaded and locked with the ammunition locked separately from the gun.
- Figure out nonviolent ways to handle anger or fear. Fighting and carrying weapons can be dangerous. You can talk to me about how to avoid these situations.
- Healthy dating relationships are built on respect, concern, and doing things both of you like to do.

American Academy of Pediatrics

# **Bright Futures Parent Handout Early Adolescent Visits**

Here are some suggestions from Bright Futures experts that may be of value to your family.

### Your Growing and Changing Child

- Talk with your child about how her body is changing with puberty.
- Encourage your child to brush his teeth twice a day and floss once a day.
- Help your child get to the dentist twice a year.
- Serve healthy food and eat together as a family often.
- Encourage your child to get 1 hour of vigorous physical activity every day.
- Help your child limit screen time (TV, video games, or computer) to 2 hours a day, not including homework time.
- Praise your child when she does something well, not just when she looks good.

#### **Healthy Behavior Choices**

- Help your child find fun, safe things to do.
- Make sure your child knows how you feel about alcohol and drug use.
- Consider a plan to make sure your child or his friends cannot get alcohol or prescription drugs in your home.
- Talk about relationships, sex, and values.
- Encourage your child not to have sex.
- If you are uncomfortable talking about puberty or sexual pressures with your child, please ask me or others you trust for reliable information that can help you.
- Use clear and consistent rules and discipline with your child.
- Be a role model for healthy behavior choices.

#### **Feeling Happy**

- Encourage your child to think through problems herself with your support.
- Help your child figure out healthy ways to deal with stress.
- Spend time with your child.
- Know your child's friends and their parents, where your child is, and what he is doing at all times.
- Show your child how to use talk to share feelings and handle disputes.
- If you are concerned that your child is sad, depressed, nervous, irritable, hopeless, or angry, talk with me.

#### **School and Friends**

- Check in with your child's teacher about her grades on tests and attend back-to-school events and parent-teacher conferences if possible.
- Talk with your child as she takes over responsibility for schoolwork.
- Help your child with organizing time, if he needs it.
- Encourage reading.

COMPETENCE

ACADEMIC

SOCIAL AND

- Help your child find activities she is really interested in, besides schoolwork.
- Help your child find and try activities that help others.
- Give your child the chance to make more of his own decisions as he grows older.

#### **Violence and Injuries**

- Make sure everyone always wears a seat belt in the car.
- Do not allow your child to ride ATVs.

/IOLENCE AND INJURY PREVENTION

- Make sure your child knows how to get help if he is feeling unsafe.
- Remove guns from your home. If you must keep a gun in your home, make sure it is unloaded and locked with ammunition locked in a separate place.
- Help your child figure out nonviolent ways to handle anger or fear.

American Academy of Pediatrics

The recommendations in this publication do not indicate an exclusive course of treatment or serve as a standard of medical care. This project is created by the National HPV Vaccination Roundtable, a coalition of public health organizations from across the country. Their purpose is to prevent cancer through increasing awareness of HPV vaccination and dispelling myths about the vaccine.

For the first time, parents and students can work together, making a difference, actually closing the door on cancer!

- 1. HPV vaccination is recommended for BOTH boys and girls at ages 11 or 12 years, but can be started as early as age 9.
- 2. The HPV vaccine series should be completed before the 13th birthday to be most effective.
- 3. HPV vaccines have been on the market for over 10 years and there have been over 200 million doses of HPV administered worldwide.
- 4. HPV is extremely common and almost everyone will be infected in his or her lifetime. There is no way to know if an infection will lead to cancer.
- 5. Every year, over 30,700 women and men are affected by a cancer caused by HPV— that is a new case every 20 minutes.
- 6. Every year in the United States, over 2 million women have invasive testing and biopsies to look for precancer or cancer of the cervix caused by HPV infection. HPV vaccination of preteens can slash those numbers dramatically.
- 7. Each HPV vaccine—Gardasil® 9, Gardasil®, and Cervarix®—went through years of extensive safety testing before they were licensed by the U.S. Food and Drug Administration (FDA), and are continually monitored for safety.
- 8. Like any vaccine or medicine, HPV vaccines can cause side effects. The most common side effects are mild, usually pain, redness, or swelling in the arm where the shot was given, as well as dizziness, fainting, nausea, and headache. Adolescents with a severe allergy to yeast should not receive Gardasil® 9, or Gardasil®.
- 9. Some adolescents faint from getting shots. Patients should remain seated for 15 minutes after receiving any shot to prevent injury from falls that could occur from fainting.
- 10. Too few boys and girls in the United States get the HPV vaccine and thus miss the protection it could provide. When the HPV vaccine series is completed, it can prevent cancer literally.

We know you're busy. It's tough to juggle everything you do to care for the health of your students. Look at this campaign as a helper, not an addition to your "to-do list." By providing your parents with this toolbox, you are equipping them with the health tips they need to care for their middle school child. It's a win-win.

Here are some easy ways to make the most of this toolbox.

#### **Strike Up a Conversation**

The easiest way to disseminate this information is when you are talking to a parent. Here are some easy ways to initiate a conversation:

- Did you know that your 11 year-old has some special health needs now that they are in middle school? Here is a handy resource just for your tween child.
- Yes, that [parental concern] is common for middle school children. Here is a handy resource to help you navigate your tween's health changes.

#### **Include In What You Are ALREADY Doing**

Bring the *Middle School Health Starts Here* toolbox to school and community events you are already involved with such as:

- School Registration
- Open House Event
- Child Health Check-Ins and Meetings
- Sick Child Pick-up
- IEP & 504 Meetings
- 5th Grade Graduation for Rising Middle Schoolers
- Anytime that you think a parent could benefit from this information

#### **Plan a Student Health Night**

Many school nurses across the country have had great success in hosting a special night for parents and children to learn more about health. Create an education series or single-night event, and invite local health providers – pediatricians, dentists, ophthalmologists, etc. – to set up a table and share information. Make sure to include the information from the *Middle School Health Starts Here* toolbox.

#### **Work with Health Classes**

Check in with the teachers that teach health and physical fitness classes, work the health resources into your curriculum, or see if you can include information in the 5th grade "Growth and Development" classes.

#### **Include in School Communications**

Work with your school district's Public Information Officer or Communications/Marketing office to include health messages in their communications to parents. We've included a special Mini Toolkit with materials just for your PIO, Comms Team and District Administration.

#### **Take Advantage of Health Observances**

Plan an event or remind your Public Information Officer or Communications/Marketing office to include special communications to promote messages from the Middle School Starts Here toolbox. Check out the "Health Observance Posts" in the Mini Communications Toolkit to find dates and observances.

#### **COMMUNITY RESOURCES FOR PARENT**

As a school nurse, you are an incredible bridge, connecting parents and children to the resources they need to thrive. Whether it is a child with a new diagnosis or a family who just moved to the area, school nurses are often a trusted resource for information.

Complete the contact worksheet in this packet, and copy it for parents who need additional help to jump-start their child's health.

#### **Connections to Help Navigate Your Tween's Health**

These are health providers and organizations to help you find additional care for your child's health. The information in this document may change without notice. Always follow your health provider's advice.

## MINI TOOLKIT FOR SCHOOL DISTRICT'S PUBLIC INFORMATION OFFICER

Share this information with your Public Information Officer or Communications/ Marketing office to include special communications to promote messages from the Middle School Starts Here toolbox.

# Hello Public Information Officer or Communications/Marketing office staff!

The school nurses in your district are working with other school nurses across the county to keep our middle school students safe and healthy. This mini toolkit has handy resources to help your school and/or district make the most of the Middle School Health Starts Here program.

#### In this you'll find:

- Sample letter/email to parents about the program
- eNewsletter blurb and images
- Social media posts and images
- Sample press release about the program don't forget to take advantage of the Back to School section in your local paper!
- FAQs about the program and HPV vaccination
- Communications materials to rising 5th Graders' parents to catch them up before summer

This toolkit has a website with even more information – visit **MiddleSchoolHealth.org** to learn more!

The Middle School Health Starts Here program was created by public, private, academic, and nonprofit organizations across the country that care a lot about the health of all kids. They have worked to collect the most important information for you and your kid.

#### Sample Letter/Email to Parents about the Program

Dear Parents,

Our school district has joined other schools across the county to keep our students safe, healthy and ready to learn. Your school nurses have a toolbox of health tips to keep your 11- and 12- year olds healthy all year long with the Middle School Health Starts Here program!

You've made it past the terrible twos and sped past the first day of kindergarten. Now you and your child are starting a new journey! There's more to learn, more fun and more changes. It's going to be awesome - and weird at times - but you've got this!

The Middle School Health Starts Here program can help you navigate the changes at this time in your kid's life. Tween health for 11-12 year-old children brings a new stage of health questions. We're here to help.

#### In the guide, you'll find:

- Stories from parents and health providers that have survived middle school just like you will!
- Checklists to use with your health provider to get a complete check of your child's health
- Health information to keep you up to date on your tween's health needs
- Ways for your child to learn about their own health

Our school nurses have a print version of the guide and you can visit this website with even more information – **MiddleSchoolHealth.org**.

The Middle School Health Starts Here program was created by public, private, academic, and nonprofit organizations across the country that care a lot about health of all kids. They have worked to collect the most important information for you and your child.

- National Association of School Nurses (NASN)
- Centers for Disease Control and Prevention (CDC)
- American Cancer Society (ACS)
- Association of Reproductive Health Professionals (ARHP)
- Cancer Prevention and Control Research Network (CPCRN)
- Head & Neck Cancer Alliance (HNCA)
- Health Net Federal Services (HealthNet)
- National Area Health Education Centers Organization (AHEC)
- National Association of Pediatric Nurse Practitioners (NAPNAP)
- American Association of Nurse Practitioners (AANP)
- National Hispanic Medical Association (NHMA)

If you ever have questions about your child's health, make sure to ask your health provider, nurse or doctor.
This guide is helpful, but never a replacement for the health advice of a professional that knows your child.

#### **eNewsletter Blurb**

#### TITLE:

Middle School Health Starts Here Comes to (School or District Name)

#### **BODY:**

Our school district is working to help middle schoolers become and remain as healthy as possible. The Middle School Health Starts Here program can help parents navigate the changes of this special age and time in your child's life. Tween health for 11-12 year-old children brings a new stage of health questions. The Middle School Health Starts Here program can help answer your questions about the twists and turns to becoming a teen. Visit the Middle School Health Starts Here website for more information –

MiddleSchoolHealth.org.

#### **Images**

#### Sample Press Release on the Program

**HEADLINE:** National Pilot Program to Tune Up Middle Schooler's Health Comes to (School Name)

CITY – (School Name) has joined select schools from across the county to jump start middle schooler's health. (School Name) is one of a select number of sites invited to participate in a pilot program created by the American Cancer Society, Centers for Disease Control and the National Association of School Nurses.

The Middle School Health Starts Here program can help parents navigate the changes of health and development for 11 to 12 year-old children. The website -

**MiddleSchoolHealth.org** – and printed materials have been complied by national health experts to deliver accurate, succinct information for parents.

"Middle school offers an opportunity for parents to do a thorough check up on their child's health," said SOURCE. "The goal of this program is to provide the resources our parents need and want, whether it's vaccines, body care, a basic health tune up or avoiding the danger zones of life in middle school."

The Middle School Health Starts Here program was created by public, private, academic, and nonprofit organizations across the country that care a lot about the health of all kids. They have worked to collect the most important information for parents and children in middle school:

- National Association of School Nurses (NASN)
- Centers for Disease Control and Prevention (CDC)
- Health Net Federal Services (HealthNet)
- Association of Reproductive Health Professionals (ARHP)
- American Academy of Nurse Practitioners (AANP)
- Head & Neck Cancer Alliance (HNCA)
- National Hispanic Medical Association (NHMA)
- Cancer Prevention and Control Research Network (CPCRN)
- National Association of Pediatric Nurse Practitioners (NAPNAP)
- National Area Health Education Centers Organization (AHEC)
- American Cancer Society (ACS)

Visit the Middle School Health Starts Here website for more information - MiddleSchoolHealth.org.

#### **Social Media Posts**

#### Posts to Launch the Program

Use these posts on Facebook, and modify for Twitter, to launch the program at your school.

- Middle School Health Starts Here! Our school has been selected to be part of a
  national pilot project to kick start middle school health. Get ready to navigate your
  tween's health MiddleSchoolHealth.org.
- Jump-start your tween's health get a routine well visit to check your child's overall health and growth. Keep your kid in tip-top shape at **MiddleSchoolHealth.org**.
- Jump-start your tween's health Check up on blood pressure, cholesterol and anemia. Keep your kid in tip-top shape at **MiddleSchoolHealth.org**.
- Jump-start your tween's health Check hearing and vision. Keep your kid in tip-top shape at **MiddleSchoolHealth.org**.
- Jump start your tween's health Stay up to date on all vaccines to prevent diseases. Keep your kid in tip-top shape at **MiddleSchoolHealth.org**.
- Jump start your tween's health Every six months, get their teeth cleaned. Keep your kid in tip-top shape at **MiddleSchoolHealth.org**.

#### **Health Observance Posts**

To promote middle school health all year long, use these posts on Facebook and modify for Twitter.

#### **JANUARY**

Approx. last week of January - National Drug and Alcohol Facts Week

POST: DYK: One in nine adolescents used alcohol— that also means that most teens, 8 in 9, did not use alcohol. Get more tips to jump-start your tween's health at **MiddleSchoolHealth.org**.

More resources - https://teens.drugabuse.gov/national-drug-alcohol-facts-week

#### **FEBRUARY**

#### **American Heart Month**

POST: Jump-start a heart healthy lifestyle. Exercising at least 30 to 60 minutes on most days is good for your ticker. Get more tips to navigate your tween's health at **MiddleSchoolHealth.org**.

More resources - https://www.goredforwomen.org

#### National Children's Dental Health Month

POST: 2min2x - Brush 2 minutes, twice a day for a healthy smile! Get more tips to navigate your tween's health at **MiddleSchoolHealth.org**.

More resources: http://www.ada.org/en/public-programs/national-childrens-dental-health-month

#### **MARCH**

#### National Nutrition Month®

#### POSTS:

- Middle schoolers need fuel to power their brains. Make sure your kid gets three cups
  of low fat or nonfat milk (or equivalent low fat or nonfat dairy products) daily. Get
  more tips to navigate your tween's health at MiddleSchoolHealth.org.
- Eat the rainbow! Aim to fuel your kid with five servings of fruits and vegetables per day. Get more tips to navigate your tween's health at **MiddleSchoolHealth.org**.
- Sugar and fat are poor fuel for middle school kids. Balanced foods are better fuel for growing bodies. Get more tips to navigate your tween's health at MiddleSchoolHealth.org.
- H2Oh-yeah! Water is the best beverage for growing bodies. To keep your tween in top shape, limit juice to no more than 8 ounces per day. Get more tips to navigate your tween's health at **MiddleSchoolHealth.org**.

More resources - http://www.eatright.org/resource/food/resources/national-nutrition-month/national-nutrition-month

#### National Sleep Awareness Week $^{\scriptscriptstyle{(\! R)}}$ - Second week of March

POST: Zzzzzzzz. Tweens still need 10-11 hours of sleep per night. Lack of sleep can make it hard to pay attention at school. Get more tips to navigate your tween's health at **MiddleSchoolHealth.org**.

More resources: https://sleepfoundation.org/

/\	ப	-	

World Immunization Week - Last week of April

POST:

- Disease is only a plane ride away! Polio, measles and mumps are active diseases around the world. Protecting your child from disease is as easy as keeping their vaccines up to date. Get more tips to navigate your tween's health at MiddleSchoolHealth.org.
- DYK: When the HPV vaccine series is completed, it can prevent cancer literally. Get more tips to navigate your tween's health at **MiddleSchoolHealth.org**.
- The HPV vaccine is now recommended for BOTH boys and girls starting as young as 9 years old. Most health care providers start recommending it at 11 and 12 years old, and completed by their 13th birthday. Get more tips to navigate your tween's health at MiddleSchoolHealth.org.
- Research shows that the HPV vaccines are safe. The benefits of HPV vaccination far outweigh any potential risk of side effects. Get more tips to navigate your tween's health at MiddleSchoolHealth.org.
- DYK: The HPV vaccine has been on the market for more than 10 years and is not associated with any serious side effects. Now that's good news! Get more tips to navigate your tween's health at **MiddleSchoolHealth.org**.

More resources: https://healthfinder.gov/NHO/nho.aspx?year=2016#639

#### World Meningitis Day - April 24

POST: Many parents don't know the warning signs of meningitis. Symptoms can be similar to those of the common flu (fever, vomiting, headache, stiff neck, sensitivity to light, and drowsiness or altered consciousness) and can develop in just hours. Many types of meningitis are vaccine-preventable. Ask your doctor if your child is up to date. Get more tips to navigate your tween's health at **MiddleSchoolHealth.org**.

More resources: http://www.comomeningitis.org/

1 7 1	_	١ı

#### Better Hearing and Speech Month

POST: Do you have fewer conversations with your kids than you'd like because of technology distractions? If you answered yes, you are a typical parent in the digital age. Safeguard your child's hearing and vision by monitoring their smartphone and tablet usage. Get more tips to navigate your tween's health at **MiddleSchoolHealth.org**.

More resources: http://www.asha.org/bhsm/

#### Melanoma/Skin Cancer Detection and Prevention Month®

POST: Help your tween create a life-long habit of skin protection. When you are going to be outside, even on cloudy days, apply sunscreen to all skin that will not be covered by clothing. Reapply approximately every two hours, or after swimming or sweating. Get more tips to navigate your tween's health at **MiddleSchoolHealth.org**.

More resources: https://www.aad.org/public/spot-skin-cancer?redirect

#### JUNE

#### **National Safety Month**

POST: Safety never takes a holiday. Take extra care this summer to prevent unnecessary injury. Get more tips to navigate your tween's health at **MiddleSchoolHealth.org**.

More resources: http://www.nsc.org/act/events/Pages/national-safety-month.aspx

#### National Lightning Safety Awareness Week - Third Week of June

POST: DYK: There is no safe place outside when thunderstorms are in the area! When thunder roars, go indoors: a substantial building with electricity or plumbing, or an enclosed, metal-topped vehicle with windows up. Get more tips to navigate your tween's health at **MiddleSchoolHealth.org**.

More resources - http://www.lightningsafety.noaa.gov/

#### JULY

#### Juvenile Arthritis Awareness Month

POST: DYK: Juvenile arthritis affects nearly 300,000 children in the United States. The various types of juvenile arthritis share many common symptoms, like pain, joint swelling, redness and warmth. Get more tips to navigate your tween's health at **MiddleSchoolHealth.org**.

More resources: http://www.arthritis.org/about-arthritis/types/juvenile-arthritis/

#### **AUGUST**

#### Children's Eye Health and Safety Month

POST: 43% of sports-related eye injuries are to children ages 14 and younger. Ensure your child has the right eye protection for the sport. Get more tips to navigate your tween's health at **MiddleSchoolHealth.org**.

More resources: http://www.preventblindness.org/

#### National Immunization Awareness Month

#### POSTS:

- Say "Shoo!" to the flu. Get the flu shot annually to help avoid this nasty illness. Get more tips to navigate your tween's health at **MiddleSchoolHealth.org**.
- The Tdap vaccine is one mighty shot! When your tween gets the Tdap booster at 11 or 12 years old, they are protected against three illnesses! Get more tips to navigate your tween's health at **MiddleSchoolHealth.org**.
- Holy awesome health, Batman! One Meningococcal ACWY shot at age 11 or 12 will help protect against four strains of meningococcal bacteria, which causes infections of the lining of the brain and spinal cord. Get more tips to navigate your tween's health at MiddleSchoolHealth.org.
- Prevent cancer literally! Both boys and girls need to complete the HPV vaccine series to be fully protected from strains of the human papillomavirus that is known to cause cancer. Get more tips to navigate your tween's health at **MiddleSchoolHealth.org**.
- DYK: When the HPV vaccine series is completed, it can prevent cancer literally. Get more tips to navigate your tween's health at **MiddleSchoolHealth.org**.
- The HPV vaccine is now recommended for BOTH boys and girls starting as young as 9 years old. Most health care providers start recommending it at 11 and 12 years old. Get more tips to navigate your tween's health at **MiddleSchoolHealth.org**.

#### **OCTOBER**

#### **National Dental Hygiene Month**

Are your family's choppers up for the Daily 4 challenge? Brush 2x per day for 2 minutes each time, floss, rinse with mouth wash and chew sugar-free gum. Get more tips to navigate your tween's health at **MiddleSchoolHealth.org**.

More resources - http://www.adha.org/national-dental-hygiene-month

#### Mental Illness Awareness Week - First Week of the Month

R U Okay? Just over half (50.6%) of children aged 8-15 received mental health services in the previous year. Don't be afraid to seek help for your child or yourself. Get more tips to navigate your tween's health at **MiddleSchoolHealth.org**.

More resources: http://www.nami.org

#### **NOVEMBER**

#### **American Diabetes Month**

Diabetes affects nearly 30 million children and adults in the U.S. today—nearly 10% of the population. Eating right with every bite can help your family keep weight off and prevent type 2 diabetes. Get more tips to navigate your tween's health at **MiddleSchoolHealth.org**.

More resources: http://www.diabetes.org/in-my-community/american-diabetes-month.html

#### **Great American Smoke-out** - November 19

Teen smoking is more common among teens whose parents smoke. If you smoke, quit. The earlier you stop smoking, the less likely your teen is to become a smoker. Get more tips to navigate your tween's health at **MiddleSchoolHealth.org**.

More resources: http://www.cancer.org/healthy/stayawayfromtobacco/greatamericansmokeout/

#### **DECEMBER**

National Influenza Vaccination Week - First Week of December

DYK: You may spread the flu virus 1 day BEFORE symptoms develop and up to 5 - 7 days AFTER becoming sick. Don't spread the flu at all by getting the flu vaccine for everyone in your family (over 6 months old) every year. Get more tips to navigate your tween's health at **MiddleSchoolHealth.org**.

More resources: http://www.cdc.gov/flu/nivw/

National Handwashing Awareness Week - First Week of the Month

Help us "spread the word not the germs" on how "Handwashing is the new vaccine"\* against ALL respiratory and many gastro-intestinal infections! Wash your hands often and sneeze into your elbow to stop germs from spreading! Get more tips to navigate your tween's health at **MiddleSchoolHealth.org**.

# Here are some answers to frequently asked questions about the Middle School Health Starts Here program.

#### Who created this program?

The Middle School Health Starts Here program was created by the National HPV Vaccination Roundtable. The Middle School Health Starts Here program was created by public, private, academic, and nonprofit organizations across the country that care a lot about the health of all kids.

They have worked to pull the most important information for parents and children in middle school:

- National Association of School Nurses (NASN)
- Centers for Disease Control and Prevention (CDC)
- American Academy of Nurse Practitioners (AANP)
- American Cancer Society (ACS)
- Association of Reproductive Health Professionals (ARHP)
- Cancer Prevention and Control Research Network (CPCRN)
- Head & Neck Cancer Alliance (HNCA)
- Health Net Federal Services (Health Net)
- National Area Health Education Centers Organization (AHEC)
- National Association of Pediatric Nurse Practitioners (NAPNAP)
- National Hispanic Medical Association (NHMA)

Visit the Middle School Health Starts Here website for more information – **MiddleSchoolHealth.org**.

#### FAQS ABOUT THIS PROGRAM AND THE HPV VACCINE

#### Why was this program created?

Middle School Health Starts Here's purpose is to address the issues which impact the health and safety of middle schoolers. This transition time is difficult for both the parents and the students. There are a lot of social, emotional and physical changes taking place. It can be overwhelming for everybody involved. This toolkit provides research and evidence-based information to help parents and to dispel myths. While the Roundtable is focused on increasing awareness of HPV vaccination and dispel myths about the vaccine, the program was created to address all health issues of middle schoolers. School nurses are often seen as a valuable resource for parents, who have questions about all aspects of tween health. This program was created to support school nurses as they answer those questions.

#### Who paid for this program?

Funding for this guide was made possible (in part) by the Centers for Disease Control and Prevention Cooperative Agreement number 5H23IP000931-01. The content in this toolkit does not necessarily reflect the official policies of the Department of Health and Human Services, nor does the mention of trade names, commercial practices, or organizations imply endorsement by the U.S. Government.

#### Why is HPV vaccination included?

HPV vaccination is recommended for 11 to 12 year olds. When talking about tween health, it makes sense to include HPV vaccination. Here are 10 facts about HPV and the vaccine.

- 1. HPV vaccination is recommended for BOTH boys and girls at ages 11 or 12 years, but can be started as early as age 9.
- 2. The HPV vaccine series should be completed before the 13th birthday to be most effective.
- 3. HPV vaccines have been on the market for over 10 years and there have been over 200 million doses of HPV administered worldwide.
- 4. HPV is extremely common and almost everyone will be infected in his or her lifetime. There is no way to know if an infection will lead to cancer.
- 5. Every year, over 30,700 women and men are affected by a cancer caused by HPV— that is a new case every 20 minutes.

#### FAQS ABOUT THIS PROGRAM AND THE HPV VACCINE

- 6. Every year in the United States, over 2 million women have invasive testing and biopsies to look for precancer or cancer of the cervix caused by HPV infection.HPV vaccination of preteens can slash those numbers dramatically.
- 7. Each HPV vaccine—Gardasil® 9, Gardasil®, and Cervarix®—went through years of extensive safety testing before they were licensed by the U.S. Food and Drug Administration (FDA), and are continually monitored for safety.
- 8. Like any vaccine or medicine, HPV vaccines can cause side effects. The most common side effects are mild, usually pain, redness, or swelling in the arm where the shot was given, as well as dizziness, fainting, nausea, and headache. Adolescents with a severe allergy to yeast should not receive Gardasil® 9, or Gardasil®.
- 9. Some adolescents faint from getting shots. Patients should remain seated for 15 minutes after receiving any shot to prevent injury from falls that could occur from fainting.
- 10. Too few boys and girls in the United States get the HPV vaccine and thus miss the protection it could provide. When the HPV vaccine series is completed, it can prevent cancer literally.

#### **RISING 5TH GRADER DIGITAL COMMUNICATIONS**

Sample email, eNews and social media materials for distribution to 5th grader's parents in the spring semester/quarter.

#### SAMPLE EMAIL

Dear Parents.

Our school district has joined other schools across the county to keep our students safe, healthy and ready to learn. Our school nurse (NAME) has a toolbox of health tips to keep our rising middle schoolers healthy all year long.

The Middle School Health Starts Here program can help you navigate the changes of this time in your kid's life. Tween health brings a new stage of health questions. We're here to help.

In the guide, you'll find:

- Checklists to use with your health provider to get a complete check of your child's health.
- Health information to keep you up to date on your tween's health needs.
- Ways for your child to learn about their own health.

Our school nurse has a print version of the guide, and you can visit this website with even more information – **MiddleSchoolHealth.org**.

#### RISING 5TH GRADER DIGITAL COMMUNICATIONS

The Middle School Health Starts Here program was created by public, private, academic, and nonprofit organizations across the country that care a lot about the health of all kids. They have worked to collect the most important information for you and your child.

- National Association of School Nurses (NASN)
- Centers for Disease Control and Prevention (CDC)
- American Academy of Nurse Practitioners (AANP)
- American Cancer Society (ACS)
- Association of Reproductive Health Professionals (ARHP)
