

**Illinois Trauma Registry**  
**Corporate Report Release Notes**  
Issue Date March 12, 2007

**REPORT NAME: PATIENT RECORD, ABBREVIATED**

Report Purpose—

The report provides a means of accessing and displaying patient data using a registry number, a last name, or a date range. More specifically, the report displays a pre-determined set of demographic, prehospital, transfer, emergency department, trauma assessment, hospitalization, discharge, and performance improvement information from the patient record, as indicated in the *Report Layout* section, below.

Report Layout—

DEMOGRAPHY

REGISTRY #: *registry number*                      MEDICAL RECORD #: *medical record number*

NAME: *name*

AGE: *age*    GENDER: *gender*

INJURY DATE/TIME: *injury date/time*

ETIOLOGY: *principal ecode and description; secondary ecode and description*

PRE-HOSPITAL

DATE/TIME CALL RECEIVED: *date/time call received*                      SCENE MINUTES: *scene time, in mins.*

VEHICLE HIGHEST LEVEL OF CARE: *vehicle highest level of care*

GLASCOW COMA SCORE: *Total GCS (based on age)*

SYSTOLIC BLOOD PRESSURE: *systolic blood pressure*                      RESPIRATORY RATE: *respiratory rate*

TRAUMA SCORE: *trauma score (field label is based on age)\**

TRANSFERRING HOSPITAL

GLASCOW COMA SCORE: *Total GCS (based on age)*                      RESPIRATORY RATE: *respiratory rate*

SYSTOLIC BLOOD PRESSURE: *systolic blood pressure*

TRAUMA SCORE: *trauma score (field label is based on age)\**

EMERGENCY DEPARTMENT

ARRIVAL DATE/TIME: *ED arrival date/time*

SYSTOLIC BLOOD PRESSURE: *systolic blood pressure*                      RESPIRATORY RATE: *respiratory rate*

BLOOD ALCOHOL LEVEL: *blood alcohol results*                      DRUG SCREEN RESULTS: *drug screen results*
