S9999	<p>Continued From page 10</p> <p>On 5/8/25 at 12:34 PM, R13 was observed eating lunch in the facility dining room, sitting next to V11 (R13's wife). R13's lunch did not include a "large" portion, fortified pudding, or fortified ice cream. V11 said last she knew, R13 weighed right around 175 pounds. V11 said R13 did not get pudding or a fortified ice cream and R13's appetite fluctuates. R13 ate a slice of pie, about 25% of his sweet potatoes, 80% of his pea salad, and 20% of his BBQ pork. R13 did not eat any of his cornbread and he received regular sized portions of lunch items. Throughout lunch service, no staff were seen checking on R13 to see how much he had eaten, how his appetite was, or to encourage him to eat. At 12:57 PM, V11 unlocked R13's wheelchair and removed him from the dining room. Lunch had ended and R13 never received fortified pudding, a fortified ice cream, or a large portion.</p> <p>On 5/8/25 at 2:25 PM, V2 (Director of Nursing) said, if ordered, fortified pudding and fortified ice cream should be given by dietary staff. V2 said if dietician recommendations are not followed, there is a risk the resident will continue to lose weight. V2 said this is a concern because weight maintenance is important for preventing disease and illnesses and promoting wound healing. V2 said she knows R13 is supposed to be receiving double portions at mealtimes.</p> <p>On 5/8/25 at 2:42 PM, V6 (Food Service Director) said V12 (Dietician) emails V2 and V6 to let them know when she orders supplements for a resident. V6 said V12 (Dietician) will then put the recommendations directly into the menu system so the supplements/recommendations will print out on the resident's meal ticket for each meal. V6 said she then highlights on the meal ticket if it</p>	S9999

S9999	<p>Continued From page 11</p> <p>says double portion or fortified pudding. V6 said the kitchen staff just had a meeting about supplements in which she told the staff if any items are highlighted on the meal ticket, the resident must get those items. V6 said the server is responsible for giving the resident fortified pudding and fortified ice cream and the Cook is responsible for making sure the resident gets double, or "large" portions. V6 then provided surveyor with R13's meal ticket, which showed large portions with all meals and fortified pudding at lunch. V6 said residents with large portions ordered should get double scoops. S9999	<p>Continued From page 14</p> <p>Meropenem-Sodium Chloride intravenous solution reconstituted 1 gram in 50 milliliters (1gm/50ml). Use 1 gm IV every 8 hours for bacterial infection until 5/11/25 23:00.</p> <p>On 5/6/25 at 10:31 AM, R225 was observed in his bed with a 100 ml 0.9 NS reconstituted with 1-gram Meropenem infusing at 50 ml/hr. The infusion pump was programmed for Meropenem infusing at 50 ml/hr with only 50 ml as the volume to be infused.</p> <p>On 5/6/25 at 11:58 AM, V2 (Director of Nursing) stated, "I am supposed to mix Meropenem 1 gram with 50 ml of 0.9 NS, but I didn't have 50 ml bag and that's why I mixed with a 100 ml bag....After reconstituting 1 gm of Meropenem with 100 ml 0.9 NS, the resident is going to get only half the dose if I run it at 50 cc/hr for an hour."</p> <p>On 5/6/2025 at 11:58 AM, there was no documentation in R225's medical record that showed R225's Physician was notified that 50ml IV bags were not available and that 100ml would need to be infused for the full Meropenem dose, or if the 100ml with the full dose would require more time for the infusion, or if infusing 100ml over one hour was acceptable.</p> <p>The facility presented a policy on Administering Medications through Secondary IV tubing document (last approved 1/2024): Review physician order and confirm the "5 rights" of medication (right resident, medication name, dose, route, rate). If no rate is ordered, calculate the rate according to dose, volume, and time ordered.</p> <p>"B"</p>	S9999

S9999	<p>Continued From page 18</p> <p>stated, dented cans that arrive at the facility dented are rejected because we can't verify if it was packaged incorrectly or not properly sealed- they may have botulism. If we dent it the cans, we are ok to use them because we know we dropped it and there is nothing wrong with it. If the edges are dented even if we dropped the can, we would not use the can of food. Food should be labeled with an opened on and use by date, so we know when to pull it off the shelf. There is a safety risk using food that is outdated it could be spoiled and cause illness. Food items should be labeled with the contents in case someone has an allergy we don't want to serve it to them. Food items that should be refrigerated should not be stored in the dry storage area because it could start to grow bacteria. Food items should be securely sealed so no contaminates get inside- contaminates could cause illness. Outdated food items could be spoiled and cause residents to become sick. V6 stated I don't know how those cans got in the refrigerator- the stuff growing on top looked like mold. We wouldn't want it growing in the refrigerator because it could cause illness.</p> <p>The Facility policy "Receiving" (dated 1/25) showed to refuse dented cans. The facility did not provide a policy for dented cans stored in the facility.</p> <p>The facility policy "Food Supply and Storage" (dated 1/25) showed all food, non- food items, and supplies that will be used in food preparation shall be stored in such a manner as to prevent contamination to maintain the safety and wholesomeness of the food for human consumption. Foods past the use-by, sell by, best-by, or enjoy by date should be discarded. Cover, label, and date unused portions and open packages. Discard food past the use-by or</p>	S9999
