

INTEGRATED PEST MANAGEMENT FORM (LICENSED DAY CARE CENTERS)

Form Instructions

The Illinois Structural Pest Control Act, [225 ILCS 235/10.2] states "When economically feasible, each school and day care center is required to develop and implement an integrated pest management program that incorporates the guidelines developed by the Department. Each school and day care center must notify the Department, within one year after the effective date of this amendatory Act of the 95th General Assembly and every five years thereafter, on forms provided by the Department that the school or day care center has developed and is implementing an integrated pest management program. In implementing an integrated pest management program, a school or day care center must assign a designated person to assume responsibility for the oversight of pest management practices in that school or day care center and for recordkeeping requirements.

b-1. If adopting an integrated pest management program is not economically feasible because such adoption would result in an increase in the pest control costs of the school or day care center, the school or day care center must provide, within one year after the effective date of this amendatory Act of the 95th General Assembly and every five years thereafter, written notification to the Department, on forms provided by the Department, that the development and implementation of an integrated pest management program is not economically feasible. The notification must include projected pest control costs for the term of the pest control program and projected costs for implementing an integrated pest management program for that same time period.

B-2. Each school or day care center that provides written notification to the Department that the adoption of an integrated pest management program is not economically feasible pursuant to subsection (b-1) of this Section must have its designated person attend a training course on integrated pest management within one year after the effective date of this amendatory Act of the 95th General Assembly, and every five years thereafter until an integrated pest management program is developed and implemented in the school or day care center. The training course shall be approved by the Department in accordance with the minimum standards established by the Department under this Act."

The following are explanations for the selected numbered items from this form:

- 1 - Enter the day care center name.
- 2 - Enter the ID number issued to the facility by the Department of Children and Family Services.
- 3 - Enter the current date.
- 4 (a-d) - Enter the street address of the day care center.
- 5 (a-d) - Enter the mailing address if different than street address.
- 6 - Enter the contact person for the day care center.
- 7 - Enter the phone number of the day care center.
- 8 - Enter the e-mail address (if available) for the day care center.
- 9 - If the day care center has an integrated pest management program as described by the Illinois Structural Pest Control Act, [225 ILCS 235/3.25, 10.2], enter "yes." If it is not economically feasible to develop and implement an integrated pest management program at this time, enter "No."
- 10 -12 Fill out only if you answered "yes" in block 9. Otherwise skip to block 13.
 - 10 - Enter the date that your integrated pest management plan was written or last modified.
 - 11 - Enter the date that your integrated pest management plan was implemented.
 - 12 - Enter the name of the designated person responsible for the oversight of pest management practices and recordkeeping requirements.
- 13 - 18 Fill out **only** if you answered "No" in block 9.
 - 13 - Enter the duration of your current pest contract. If you do not have a contract, use one year as a default.
 - 14 - Enter the total amount spent for your current pest program for the specified time in block 13.
 - 15 - Enter the total amount that would be spent to develop and implement an integrated pest management program for the time specified in block 13.(must be greater than block 14)
 - 16 - Enter the name of the individual who attended an Illinois Department of Public Health approved training course.
 - 17 - Enter the Illinois Department of Public Health approved training course number.
 - 18 - Enter the date the course was attended.
- 19 - If pest services are provided by an outside contractor, answer "Yes" and fill in blocks 21 and 22. If pest services are provided in house, answer "No" and fill in block 20.
- 20 - Enter the name of the individual providing in-house services.
- 21 - Enter the name of the company that applies pesticides at the school.
- 22 - Enter the Illinois Department of Public Health business license number of the company that applies pesticides at the school.
