

A Guide for Improving Health Professionals and Public Access to Injury, Violence, and Suicide Prevention and Control Data in Illinois

Prepared by:

Data and Surveillance Section

Division of Chronic Disease /Office of Health Promotion

Illinois Department of Public Health (IDPH)

and

Illinois Partnership for Safety (IPS)

April 2020

Introduction

The following guide is a comprehensive review, initiated by the Illinois Department of Public Health's Injury Prevention Program, of existing injury data websites available to the public. In accordance with the state's ongoing efforts to promote data accessibility, data dissemination, and data utilization, the data collection activities undertaken by injury professionals and the citizens of Illinois are critical to the Illinois' Injury Prevention Program and therefore should be provided with ease and accessibility.

As of April 2020, the links referenced in this document remain live and active. Users are encouraged to utilize any of the data paths, data-related information paths, data documentation paths and/or other data sources in this guide to access important injury data and data-related information for viewing and collection. These paths may be modified at any time at the discretion of the database owners. In keeping with this objective, the partnership will continue to update the links within the guide as needed.

Crime and Victimization Data

Table 11. National Child Abuse and Neglect Data System (NCANDS), Child Welfare Information Gateway, ACF

Data source	Online query	Level of data			Years available		Method of collection	Variables exist	Data request (Form)	Link to data dictionary
		National	State	County	From	To				
Link	No	Yes	Yes	No	Multiple years	Multiple years	Multiple	Yes	Not found	Not found

Data on child abuse, child welfare are available and downloadable from different websites (see below) that users can access from the National Child Abuse and Neglect Data System (NCANDS), Child Welfare Information Gateway, ACF. Users can use the link in the table to self-access national and state specific datasets for the years 1995 to present.

Data path

Topics→ Systemwide → Statistics | Statistics on child and family well-being | Statistics on substance use disorders | Child abuse and neglect statistics | Child welfare/foster care statistics | Adoption statistics | Related statistics and demographic data |

After the second arrow in the data path above, each following component is a source of injury data that is found either in documentations or reports as well as from Datawarehouse. Therefore, data users must continue to search for data of interest as they reach a higher level.

For example: Topics→ Systemwide → Statistics→ Statistics on child and family well-being | Reports Data warehouses

DATA FORMAT

Documentation (on the web access)

PDFs

According to IDPH website, death records are not public records and are only available to those who have a personal right (“property right” is defined as something that it is owned, tangible, such as a car title or a property deed) with the decedent. People who meet certain requirements can use the application for Illinois Death Record form to request death certificates.

Follow the path below to get more information.
